**REDISCOVER CHRISTMAS: LOVE**

Christmas is about the           presents           we           give            
and           receive          .

          Grace           : A           gift           freely           given          .

We are called to be           re-gifters          !

We           give           what we have           received          .

God expresses his love in           covenant          :

Binding ourselves together in a moment of           strength           so  
that we cannot be unbound in a moment of           weakness          .

The church is called to be a           covenant            
          community          .
